

We're so excited to be able to open again!

To keep you and our community safe, please see below for the protocols we have put in place which must be adhered to:

### **Before Coming to the JLE**

- Ensure you, and your household are totally symptom free of Covid-19
- Check with Government Regulations that it is safe for you to be going out. Currently, legislation does not recommend attendance by those over 70, with prior health conditions or having been recognised as vulnerable.
- Should you wish to join us for Shabbat Morning Services pre-booking is essential. You can reserve your seat at [www.jle.org.uk](http://www.jle.org.uk). Please note, priority booking will be given to synagogue members. There will be a security guard at all times, who will require your name before allowing entry.
- Due to our highly limited capacity, we will not allow children under Bar/Bat Mitzvah age in for services.
- In line with government guidance, there will be additional ventilation including open windows. Please bear this in mind and come dressed appropriately as windows will remain open at all times.
- We strongly recommend bringing your own Siddur/Chumash/Learning Material.

### **When You Come into JLE**

- Entry to the JLE will only be through the main door on Golders Green Road.
- Exit from the JLE will only be through the back door via the rear stairs.
- We insist that all visitors use hand sanitiser on entry. This is available throughout the building.
- Feel free to wear face masks or any other personal protective equipment.
- Please avoid any physical contact including shaking hands.
- There will be a one-way system in place throughout the building – we ask that this is adhered to at all times.
- In line with communal guidance, one should refrain from kissing Mezuzot and Sifrei Torah.
- There will be no communal singing or loud chanting, only the Chazan will sing with appropriate PPE as per government guidelines.
- The Synagogue has been set up in line with social distancing guidelines. We ask all attendees to maintain social distancing of two metres.
- The kitchen will not be in use. There will be individual bottles of water available in the Synagogue.
- Although there is temptation to catch up with friends you may not have seen. We ask that you leave the JLE building promptly after the service.

As always, our priority is the health and wellbeing of our members, students and staff. The JLE will review these guidelines every 2 weeks and communicate any changes that are made.

The above guidelines are valid from the 4<sup>th</sup> July 2020 until further notice.
